## PROFESSIONAL SUMMARY

MCA graduate and entry-level Software Developer with strong expertise in Java, SQL, and backend development. Experienced in building assured web applications using Java, JSP, Servlets, MySQL, and REST-based architectures. Hands-on experience with AWS (EC2, S3), Docker, Selenium automation testing, and CI/CD workflows. Strong foundation in data structures, problem solving, and cloud-based application development. Seeking an entry-level Software Developer or Cloud Engineer role to build scalable and firm enterprise applications.

## TECHNICAL SKILLS

**Programming Languages:** Java, Python, C, C++, PHP, SQL
**Web Technologies:** HTML, CSS, JavaScript, JSP, Servlets
**Frameworks & Libraries:** Spring Boot, React.js, Node.js
**Databases:** MySQL
**Cloud & DevOps:** AWS (EC2, S3), Docker, CI/CD
**Testing Tools:** Selenium WebDriver, Manual Testing, Test Case Design
**Developer Tools:** Git, GitHub, Postman, Visual Studio
**Core Computer Science:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

## EXPERIENCE

**Software Developer Intern – TechCiti Software Consulting Pvt. Ltd., Bangalore** (Nov 2024 – Jan 2025)
• Developed a save cloud-based storage system using Java and MySQL implementing Public Key Encryption to protect 100+ encrypted files.
• Implemented encrypted data retrieval and storage mechanisms improving data access performance by 30%.
• Planed backend modules for keyword-based encrypted search enabling fast document retrieval.
• Engineered data de-duplication logic to reduce redundant storage and improve system efficiency.

**Software Testing Intern – QSpiders CampusConnect, Bangalore** (Mar 2023 – May 2023)
• Designed and executed 30+ manual and automated test cases using Selenium WebDriver.
• Performed functional and regression testing improving application reliability.
• Wrote SQL queries to validate backend database operations and ensure data accuracy.
• Applied SDLC and STLC methodologies in real-time testing environments.

## PROJECTS

**Qpause – Quantum Immune Access Control System | JSP, Servlets, MySQL | Github**
• Built a fixed cloud storage application supporting encrypted upload and retrieval of 50+ files.
• Integrated public key encryption with keyword-based search for fast data access.
• Administered data de-duplication mechanisms to reduce redundant storage.

**Data Secure De-Duplication & Recovery System | Java, SQL, HTML, CSS, JavaScript | Github**
• Architected a unattackable data storage system using hashing, encryption, and chunking techniques.
• Constructed backend modules for strong file recovery and keyword-based data retrieval.
• Optimized MySQL queries reducing data retrieval time by 25%.

## EDUCATION

**Master of Computer Applications (MCA)**
AMC Engineering College, Bangalore | 2023 – 2025 | CGPA: 8.4 / 10
**Bachelor of Computer Applications (BCA)**
Vidyavahini First Grade College, Tumkur |2020 – 2023 | CGPA: 7.6 / 10

## CERTIFICATIONS

• NPTEL – Software Testing Certification
• Full Stack Development – TechCiti Software Consulting Pvt. Ltd.
• Automation Testing – QSpiders CampusConnect
